## About Starshine Drive

Guangdong Starshine Drive Co., Ltd., founded in 1965, is a high-tech enterprise integrating R&D, production, sales, and service. It is dedicated to developing and manufacturing high-quality products including reducers, motors, inverters, controllers, and smart systems. It provides efficient integrated transmission solutions for industries including ceramics, logistics, textiles, grain & oil, food, packaging, glass, woodworking, high-voltage disconnectors, plastic, environmental protection, and lithium batteries machine.

With a mission to drive global industrial innovation through industry-leading speed reducer and transmission application technologies, the company adheres to the business philosophy of "Creating Value with Quality," continuously focuses on customer needs, strives to build a preferred brand for industry users, and aims to become a global happiness enterprise serving the world.
